

Koalas

Life as a koala is pretty laid back

The koala eats eucalyptus leaves
but doesn't drink any water

He sleeps most of the day
and most of the night...

He is tired...

as gum leaves don't have much energy
maybe he should eat gum drops instead!

Goodnight, Adiós, Òkhien òwie, Jövvö iedö

Bonne soirée, Bòna nòtt, Xeyirli tön, Natën e mirë

Gijängiz rahat bolsun, Dobru nóç, Tàníkwa

Jó éjszakát, Hyvää yötä, Head ööd, Kakúma

Koalas in Australia

This paragraph does not have multiple styles.

Use it when you know the editfield will not contain multiple styles of text. It is much faster than styled text, as it generates line by line. The text is not encoded, so you can look at the PDF source and see what is happening.

This paragraph can have multiple styles.

Each character in this paragraph is checked for font and style and color. Each different style run or line of text is a separate string in the pdf file.

Use the **font, style and color** options to change the *attributes of selected text* in this field.

The text is not encoded, **so you can look at the PDF source** and see what is happening.
